

[Issue 67317] write error when trying to save or save as a file.

OpenOffice.org 2.0.3

I do not want to make myself conspicuous but write errors always occurs when using Writer or Calc ...

1 - I made the test to answer your question : with an empty document. I create it, I save it a first time, I let it opened on windows desktop. I do other job. I go back to the document.

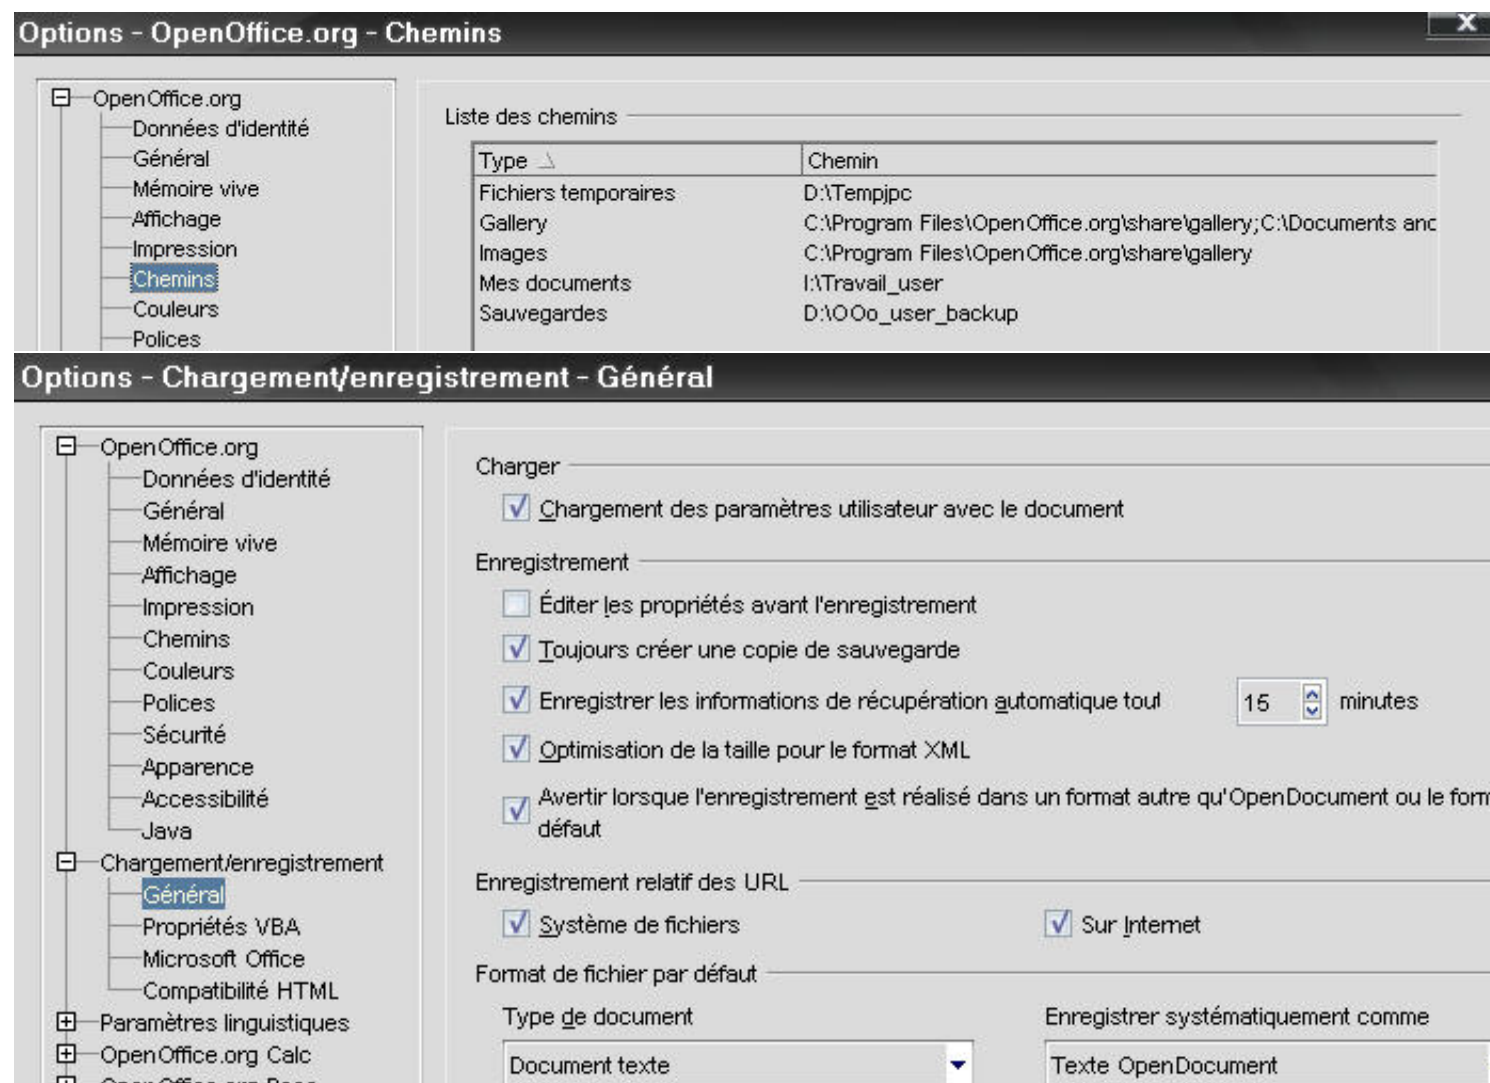

I try a save => then error occurs.

It is the same with a save as.

It is the same with calc.

2 - When I have this trouble and when I save in .doc format, I can reopen it and update document with OOo Writer. I can even save it once, after that, in native OOo format. After that, same bug occurs again.

Here follow some OOo settings :

below are some of my HDD specifications

Areca Technology Corporation

Raid Set Hierarchy				
Raid Set	IDE Channels	Volume Set(Ch/Id/Lun)	Volume State	Capacity
Raid Set # 00	Ch01	ARC-1110-VOL#00 (0/0/0)	Normal	210.0GB
	Ch02			
	Ch03			
Raid Set # 01	Ch04	WD740GD-00FLA2 (0/0/1)	Normal	74.4GB

IDE Channels			
Channel	Usage	Capacity	Model
Ch01	Raid Set # 00	74.4GB	WDC WD740GD-00FLA1
Ch02	Raid Set # 00	74.4GB	WDC WD740GD-00FLA0
Ch03	Raid Set # 00	74.4GB	WDC WD740GD-00FLA1
Ch04	Pass Through	74.4GB	WDC WD740GD-00FLA2

I:drive, usual work drive,
3 HDD WD Raptor, RAID0
C:drive, Windows and
system disk, WD Raptor
